

Circular Economy and Sustainability in Fashion Industry

2025.1.20-8.3

Online course for Free

Tsung-Yu Chan

Assistant Professor

The Department of Textiles and Clothing at Fu Jen University

This course explores sustainability in the fashion industry, covering upstream, midstream, and downstream aspects through practical examples. It includes the lecturer's sustainable designs, case studies on materials, Taiwan's Ministry of Environment guidelines, the sustainability of Taiwanese fashion brands, and analysis of recycled clothing.
